*With any successful project,
the key is DESIGN*

It is this design that differentiates AIPL Autograph from other commercial projects you may have heard of, designed by renowned BENOY Architects (UK). The 3 tower configuration of the development takes advantage of the north-south orientation connected with central lawn plaza, creating a cohesive urban space.

The major building entrances are located on the main ground level elevated 1.2 mtr. above the perimeter access road with an enhanced sense of arrival on a floating landscaped platform. A grand ceiling feature directs the patrons' attention towards the pristine glass box overlooking the lawn.

A PLACE for the *BIG LEAGUES*

A IPL Autograph is a unique blend of office spaces and retail with meticulous attention to detail and the seamless integration of technology and forward-thinking design. Each floor offers flexible plans to accommodate offices of various sizes, maximizing efficiency with column-free spaces.

The generous floor-to-ceiling height enhances the open, airy ambiance, while clear vistas and abundant natural light create energizing workspaces.

A TECHNICAL MARVEL

Magnificent in more than appearance.

AIPL Autograph is a breakthrough in design and technology, raising the bar with a host of premium grade features that make it not only extraordinary to look at, but extremely efficient.

Incorporating cutting-edge technology for efficiency and sustainability, AIPL Autograph will provide tenants with cost-effective space where businesses will thrive as productivity and performance increases.

FLOOR PLAN

Artistic View of AIPL Autograph

Porte-Cochère Artistic, Tower 1

ELEGANT FACADE

An efficient double glazed facade that protects the building from heat and reduces air-conditioning cost.

INSULATED GLASS

To keep distractions away, high performance double glazing helps cut sound transmission and ensures a quiet workplace.

MAXIMUM NATURAL LIGHT

By increasing the facade surface area, the design here maximizes the flow of natural light so that every floor is naturally lit up, minimizing the use of artificial light.

CENTRAL PLAZA

A naturally ventilated central plaza will act as a cohesive urban space for quick breaks between busy working day and meetings.

HIGH SPEED ELEVATORS

Advanced high speed elevators with features that guarantee high level of safety & comfort, with low waiting time.

12,000 -
1,20,000 Sq. Ft.
floor plate size

FLEXIBILITY OF SPACE

Multiplicity in offering, flexibility in planning.

Experience Gurugram's most advance workplace with highly efficient floor plates that provide optimal flexibility to ensure that the floors accommodate a range of tenant requirements and fit-out densities.

The floor plates can be divided into smaller tenancies, from 12,000 - 1,20,000 sq. f.t.* to multi floor tenancies. Regardless of the size, every office has been designed with floor-to-floor height, which enhances the open, airy ambience of the offices.
